

NIH Manuscript Submission

The NIH Manuscript Submission (NIHMS) system supports the deposit of manuscripts (PMC) as required by the public access policies of NIH and other participating funding agencies. For more information, see the [NIHMS process](#).

NIHMS supports many login routes to authenticate different types of users.

Select your login route based on who supports your research and how (e.g., employee/intramural or awardee/grantee).

See the table on the next page for funder-level login route guidance.

Keeping your login route consistent simplifies the NIHMS process and allows you to easily find and access all your submissions.

Returning users will see the “Welcome back to NIHMS” screen and will be prompted to use the same login route as on previous visits.

Note: This will not work if you use a private or incognito browser or if your cookies have expired or been cleared.

HHMI investigators

HRA awardees

Use the “Request Email Reminder” option if you’ve logged in before and can’t remember what route you used.

Login routes are not maintained by NIHMS.

If you need username or password assistance, please coordinate with the login route host (e.g., eRA Commons, HHS AMS).

Some login routes require
researchers to register their account
prior to using the NIHMS system:

Google for HRA Researchers

ORCID for NASA Grantees

Some login routes have access restrictions:

NIST Intramural Researchers should be inside the NIST firewall.

EPA Intramural Researchers should be inside the EPA network and MUST use Chrome.
